SAFETY DATA SHEET

Sigunit®-L53 MY

Version 3.0  SDS Number: 000000604690  Revision Date: 11.10.2019

SECTION 1: Identification of the hazardous chemical and of the supplier

Product name : Sigunit®-L53 MY
Product code : 000000604690
Type of product : liquid

Manufacturer or supplier's details
Lot 689 Nilai Industrial Estate
71800 Nilai
Telephone : +60 6799 1762
Telefax : +60 6799 1980
E-mail address : EHS@my.sika.com
Emergency telephone number : -
Contact point :

SECTION 2: Hazards identification

Classification of the hazardous chemical
Serious eye damage/eye irritation : Category 1

Label elements
Hazard pictograms : ☢️
Signal word : Danger
Hazard statements : H318 Causes serious eye damage.
Precautionary statements : Prevention:
P280 Wear eye protection/ face protection.
Response:
P305 + P351 + P338 + P310 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor/ physician.

Other hazards which do not result in classification
None known.

SECTION 3: Composition and information of the ingredients of the hazardous chemical

Substance / Mixture : Mixture
Hazardous components

<table>
<thead>
<tr>

<th>CAS-No.</th>
<th>Concentration (%)</th>
</tr>
</thead>
<tbody>
<tr>
<td>aluminium sulphate</td>
<td>10043-01-3</td>
<td>&gt;= 30 - &lt; 60</td>
</tr>
<tr>
<td>2,2'-iminodiethanol</td>
<td>111-42-2</td>
<td>&gt;= 3 - &lt; 5</td>
</tr>
</tbody>
</table>

SECTION 4: First aid measures

General advice
- Move out of dangerous area.
- Consult a physician.
- Show this safety data sheet to the doctor in attendance.

If inhaled
- Move to fresh air.
- Consult a physician after significant exposure.

In case of skin contact
- Take off contaminated clothing and shoes immediately.
- Wash off with soap and plenty of water.
- If symptoms persist, call a physician.

In case of eye contact
- Small amounts splashed into eyes can cause irreversible tissue damage and blindness.
- In the case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
- Continue rinsing eyes during transport to hospital.
- Remove contact lenses.
- Keep eye wide open while rinsing.

If swallowed
- Clean mouth with water and drink afterwards plenty of water.
- Do not give milk or alcoholic beverages.
- Never give anything by mouth to an unconscious person.

Most important symptoms and effects, both acute and delayed
- No known significant effects or hazards.
- Excessive lachrymation
- See Section 11 for more detailed information on health effects and symptoms.
- Causes serious eye damage.

Notes to physician
- Treat symptomatically.

SECTION 5: Firefighting measures

Extinguishing media
- Suitable extinguishing media: Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

Physicochemical hazards arising from the chemical
- Hazardous combustion products: No hazardous combustion products are known

Special protective equipment and precautions for fire-fighters
- Special protective equipment for firefighters: In the event of fire, wear self-contained breathing apparatus.
Specific extinguishing methods: Standard procedure for chemical fires.

SECTION 6: Accidental release measures

Personal precautions, protective equipment and emergency procedures:
- Use personal protective equipment.
- Deny access to unprotected persons.

Environmental precautions:
- Do not flush into surface water or sanitary sewer system.
- If the product contaminates rivers and lakes or drains inform respective authorities.

Methods and materials for containment and cleaning up:
- Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust).
- Keep in suitable, closed containers for disposal.

SECTION 7: Handling and storage

Handling

Precautions for safe handling
- Advice on protection against fire and explosion: Normal measures for preventive fire protection.
- Advice on safe handling: Avoid exceeding the given occupational exposure limits (see section 8). Do not get in eyes, on skin, or on clothing. For personal protection see section 8. Smoking, eating and drinking should be prohibited in the application area. Follow standard hygiene measures when handling chemical products.

Storage

Conditions for safe storage, including any incompatibilities
- Conditions for safe storage: Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Store in accordance with local regulations.

SECTION 8: Exposure controls and personal protection

Control parameters

<table>

Further information: Skin

| TWA (Inhalable fraction and vapor) | 1 mg/m³ | ACGIH |

Individual protection measures, such as personal protective equipment

Eye/face protection : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary.

Skin protection : Choose body protection in relation to its type, to the concentration and amount of dangerous substances, and to the specific work-place.

Hand protection : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.

Respiratory protection : Use respiratory protection unless adequate local exhaust ventilation is provided or exposure assessment demonstrates that exposures are within recommended exposure guidelines. The filter class for the respirator must be suitable for the maximum expected contaminant concentration (gas/vapour/aerosol/particulates) that may arise when handling the product. If this concentration is exceeded, self-contained breathing apparatus must be used.

Hygiene measures : Handle in accordance with good industrial hygiene and safety practice. When using do not eat or drink. When using do not smoke. Wash hands before breaks and at the end of workday.

SECTION 9: Physical and chemical properties

Appearance : liquid

Colour : yellow

Odour : odourless

Odour Threshold : No data available

pH : ca. 2.5, (20 °C (68 °F))

Melting point/range / Freezing point : No data available

Boiling point/boiling range : > 100 °C (> 212 °F)
Flash point: Not applicable
Evaporation rate: No data available
Flammability: No data available
Upper explosion limit: No data available
Lower explosion limit: No data available
Vapour pressure: 23 hPa (17 mmHg)
Relative vapour density: No data available
Density: ca. 1.4 g/cm³ (20 °C (68 °F))

Solubility(ies)
Water solubility: soluble

Partition coefficient: n-octanol/water: No data available

Auto-ignition temperature: No data available
Decomposition temperature: No data available

Viscosity
Viscosity, dynamic: No data available
Viscosity, kinematic: > 7 mm²/s (40 °C)

Explosive properties: No data available
Molecular weight: No data available

SECTION 10: Stability and reactivity
Reactivity: No dangerous reaction known under conditions of normal use.
Chemical stability: The product is chemically stable.
Possibility of hazardous reactions: No hazards to be specially mentioned.
Conditions to avoid: No data available
Incompatible materials: No data available
No decomposition if stored and applied as directed.

SECTION 11: Toxicological information
Information on likely routes of exposure: None known.

**Acute toxicity**
No data available

**Skin corrosion/irritation**
Not classified based on available information.

**Serious eye damage/eye irritation**
Causes serious eye damage.

**Respiratory or skin sensitisation**
Skin sensitisation: Not classified based on available information. 
Respiratory sensitisation: Not classified based on available information.

**Germ cell mutagenicity**
Not classified based on available information.

**Carcinogenicity**
Not classified based on available information.

**Reproductive toxicity**
Not classified based on available information.

**STOT - single exposure**
Not classified based on available information.

**STOT - repeated exposure**
Not classified based on available information.

**Aspiration toxicity**
Not classified based on available information.

## SECTION 12: Ecological information

**Ecotoxicity**

**Components:** 2,2'-iminodiethanol:

- **Toxicity to daphnia and other aquatic invertebrates:** EC50 (Daphnia magna (Water flea)): 55 mg/l
  Exposure time: 48 h

- **Toxicity to algae:** EC50 (Pseudokirchneriella subcapitata (green algae)): 75 mg/l
  Exposure time: 72 h

**Persistence and degradability**
No data available

**Bioaccumulative potential**
No data available

**Mobility in soil**
No data available
Other adverse effects

Product:
Additional ecological information: There is no data available for this product.

SECTION 13: Disposal information

Disposal methods
Waste from residues: The product should not be allowed to enter drains, water courses or the soil.
Do not contaminate ponds, waterways or ditches with chemical or used container.
Send to a licensed waste management company.

Contaminated packaging: Empty remaining contents.
Dispose of as unused product.
Do not re-use empty containers.

SECTION 14: Transport information

International Regulations

UNRTDG
Not regulated as a dangerous good

IATA-DGR
Not regulated as a dangerous good

IMDG-Code
Not regulated as a dangerous good

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code
Not applicable for product as supplied.

SECTION 15: Regulatory information

Safety, health, and environmental regulations specific for the hazardous chemical
Occupational Safety and Health (Classification, Labelling and Safety Data Sheet of Hazardous Chemicals) Regulations 2013.
International Chemical Weapons Convention (CWC): Not applicable
Schedules of Toxic Chemicals and Precursors

SECTION 16: Other information

Date format: dd.mm.yyyy
The information contained in this Safety Data Sheet corresponds to our level of knowledge at the time of publication. All warranties are excluded. Our most current General Sales Conditions shall apply. Please consult the product data sheet prior to any use and processing.

Changes as compared to previous version!
