

PRODUCT DATA SHEET

SikaRoof® VersiJack® Joist Adaptor

Joist adaptor for height-adjustable pedestal system for raised flooring

DESCRIPTION

SikaRoof® VersiJack® Joist Adaptor is an accessory used to connect an aluminium joist to the pedestal. Joist adaptors are manufactured from recycled polypropylene (PP), and it has a twist to lock / unlock when securing the aluminium joist to the pedestal. SikaRoof® VersiJack® Joist Adaptor is used in conjunction with SikaRoof® VersiJack® and SikaRoof® Versi-Frame® and is installed between the pedestal and the aluminium joist.

USES

Joist adaptor for raised flooring installations on podiums, balconies, roof terraces and areas with hard-scape finishes.

CHARACTERISTICS / ADVANTAGES

- Locks aluminium joist to pedestal
- Recyclable components
- Resistant to biological attack by moulds and algae
- Chemically resistant to acids, alkalis, oils and soil chemicals
- Operates within a wide service temperature range

CERTIFICATES AND TEST REPORTS

Singapore Green Building Product (Leader) Cert. No. SGBP 3254

ECOLOGY, HEALTH AND SAFETY

REGULATION (EC) NO 1907/2006 - REACH

This product is an article as defined in article 3 of regulation (EC) No 1907/2006 (REACH). It contains no substances which are intended to be released from the article under normal or reasonably foreseeable conditions of use. A safety data sheet following article 31 of the same regulation is not needed to bring the product to the market, to transport or to use it. For safe use follow the instructions given in the product data sheet. Based on our current knowledge, this product does not contain SVHC (substances of very high concern) as listed in Annex XIV of the REACH regulation or on the candidate list published by the European Chemicals Agency in concentrations above 0,1 % (w/w).

LEGAL NOTES

The information, and, in particular, the recommendations relating to the application and end-use of Sika products, are given in good faith based on Sika's current knowledge and experience of the products when properly stored, handled and applied under normal conditions in accordance with Sika's recommendations. In practice, the differences in materials, substrates and actual site conditions are such that no warranty in respect of merchantability or of fitness for a particular purpose, nor any liability arising out of any legal relationship whatsoever, can be inferred either from this information, or from any written recommendations, or from any other advice offered. The user of the product must test the product's suitability for the intended application and purpose. Sika reserves the right to change the properties of its products. The proprietary rights of third parties must be observed. All orders are accepted subject to our current terms of sale and delivery. Users must always refer to the most recent issue of the local Product Data Sheet for the product concerned, copies of which will be supplied on request.
