PRODUCT DATA SHEET

Davco Ceramic Tile Cleaner 800

Tile, grout and masonry cleaner

DESCRIPTION

Davco Ceramic Tile Cleaner 800 is general purpose cleaner designed for routine maintenance of showers, bathrooms and other tile / stone / masonry installations. It safely and easily removes mold and mildew, as well as mineral deposits, hardwater and rust stains.

USES

Davco Ceramic Tile Cleaner 800 is ideal for stripping grout haze, cement / mortars smears and efflorescence from new and renovated construction. It is suitable for interior or exterior use over vertical or horizontal surfaces. Davco Ceramic Tile Cleaner 800 concentrate provides extra strength for industrial / institutional demand and dilutes with water.

Area to use:
- Ceramic tile and mosaic
- Glass block, glass shower door
- Unpolished marble and granite
- Concrete block
- Grout joint
- Vanity, counter top, tub, shower
- Brick and masonry
- Metal fixture
- Concrete
- Fiberglass

CHARACTERISTICS / ADVANTAGES

- Easy to use
- Fast acting
- Safe and economical

Packaging	1 L, 4 L, 20 L
Shelf life	12 months from date of production
Storage conditions	Store properly in original, unopened and undamaged packaging in dry conditions. Protect from direct sunlight.
Density	~1.16 kg/l
pH-Value	2.00 - 3.00

APPLICATION INFORMATION

Consumption	Application	Davco Ceramic Tile Cleaner 800 : water (by volume)
	Normal cleaning	1 : 3
	Unpolished marble / limestone	1 : 3
	Granite, brick or masonry concrete	1 : 2
	Heavy soil, stains, mineral deposits	1 : 1
	Mold / mildew removal	1 : 1

Approximate coverage at recommended dilution ratio:

Davco Ceramic Tile Cleaner 800	1:1	1:2	1:3
4 L	112 m²	168 m²	224 m²
20 L	558 m²	836 m²	1 116 m²

Actual coverage will vary depending site conditions, type of surface, cleaning methods and spillage / wastage.

BASIS OF PRODUCT DATA

All technical data stated in this Product Data Sheet are based on laboratory tests. Actual measured data may vary due to circumstances beyond our control.

IMPORTANT CONSIDERATIONS

▪ Do not use on polished marble, polished limestone, terrazzo, tiles or bronze / metallic glazed tiles.
▪ Avoid contact with porcelain fixtures, sinks or tubs.
▪ Never mix or dilute with other cleaners, bleach or ammonia products
▪ Protect adjacent surfaces (eg. carpet, furniture) from residue. If required, rinse with plenty of water.
▪ Rinse with plenty of water when removing Davco Ceramic Tile Cleaner 800 from substrate.
▪ Protective mask and eye wear (goggles) should be worn at all times.
▪ Safety shoes, rubber gloves, and other appropriate skin protection shall be worn at all times.
▪ In the event of excessive contact, rinse with plenty of water and remove contaminated clothing.

ECOLOGY, HEALTH AND SAFETY

For information and advice on the safe handling, storage and disposal of chemical products, users shall refer to the most recent Safety Data Sheet (SDS) containing physical, ecological, toxicological and other safety-related data.

APPLICATION INSTRUCTIONS

MIXING

Pour Davco Ceramic Tile Cleaner 800 into a clean plastic pail or mixing container. Measure approximately the volume of water needed. Add water and stir for a minute or until uniform.

SUBSTRATE PREPARATION

Before starting application, always use a small test area to verify compatibility and results in an inconspicuous area, put 2–3 drops of Davco Ceramic Tile Cleaner 800 on the surface with clean water and let dry.

Examine surface for discoloration / shadding, staining, dulling, etching or other problems. If results are satisfactory, proceed with preparation by vacuuming or brooming all areas to remove loose dirt and debris, saturate grout joints, cement plasters / stucco and porous tile / stone with clean water before starting the application.

APPLICATION

Apply over surface to be cleaned with pump spray, sponge, brush, mop, roller or rag. Use stiff brush, broom or scrub pad to clean rough / badly soiled surfaces, satins or cement smears. Flush or mop twice with clean water. Change mop water frequently. Use broom, squeegee, wet vacuum, mop or sponge to remove rinse water. Repeat steps for stubborn stains, heavy soil or old / thick cement smears.

CLEANING OF EQUIPMENT

Rinse/clean all tools and equipment with lots of water.

LOCAL RESTRICTIONS

Please note that as a result of specific local regulations the performance of this product may vary from country to country. Please consult the local Product Data Sheet for the exact description of the application fields.

LEGAL NOTES

The information, and, in particular, the recommendations relating to the application and end-use of Sika products, are given in good faith based on Sika's current knowledge and experience of the products when properly stored, handled and applied under normal conditions in accordance with Sika's recommendations. In practice, the differences in materials, substrates and actual site conditions are such that no warranty in respect of merchantability or of fitness for a particular purpose, nor any liability arising out of any legal relationship whatsoever, can be inferred either from this information, or from any written recommendations, or from any other advice offered. The user of the product must test the product's suitability for the intended application and purpose. Sika reserves the right to change the properties of its products. The proprietary rights of third parties must be observed. All orders are accepted subject to our current terms of sale and delivery. Users must always refer to the most recent issue of the local Product Data Sheet for the product concerned, copies of which will be supplied on request.
